**DETAILED ACTION**

**Election/Restriction**

**Remarks:** This application is Divisional Application of Application Serial Number 09/524,125, in which claims 1-17, Group I and claims 18-22, Group II were canceled as non-elected claims. This is just to provide information to the applicant regarding parent application 09/524,125.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I, Claims 1-17 drawn to a remote controller, classified in Class 700, subclass 65.

Group II, Claims 18-22 drawn to a clock radio, classified in Class 455, subclass 231.

Group III, Claims 23-33, drawn to a computer readable medium and a method to detect a device with user interface which is located within a proximity of the computer, classified in Class 700, subclass 17.

Art Unit: 2121

2. Because these inventions are distinct and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Spellman, Steven J. (Reg. No. 45,124) on 6/3/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

#### **Conclusion**
